Get to know us better

HELLO an WELCOME to

VRISINI INFOTECH L.L.P.
a dedicated *TYPO3- and CONTAO-Agency* with over 18 years of experience in the web development industry.

We conceive and realize web projects for different companies and bring your company on the road to success with intelligent solutions.

We consider the fact that our customers remain loyal to us for years to be our greatest success.

On the following pages we would like to give you an impression of our services and the way we work.

Anupam Chatterjee
Managing Director

"

VRISINI INFOTECH L.L.P. is the only official CONTAO PARTNER in Asia.

We have a specialized team that takes care of all strategic management requirements at the enterprise level that we offer you. Delivering robust solutions based on latest technologies with a very user friendly interface is our primary goal. We provide a one roof solution for websites or any other web related requirements which you might have. We aspire to provide you the best technical solution at the most affordable prices and on time.

VRISINI INFOTECH L.L.P. is well known within the CONTAO- and TYPO3-community for our consultation and assistance over the newsgroups and forums.

Every enterprise starts off with the vision of an individual or a small group. As more people join in, visions are broadened, new dreams come up, ideas are construed around these visions and dreams to make them a success and make the company unmistakable. Our journey was also similar.

What started off as an initiative by a group of two open source enthusiasts several years back as a part of their ambition to learn a new and challenging technology, has now evolved into a full time responsibility of serving our clients and partners with a multitude of technical solutions.

As time went by, we kept on learning more and more, while building up our network of happy and satisfied clients at the same time. Learning was steep. But, we were always on time with the deliverables towards our clients. We worked ceaselessly for hours without tiring, as we enjoyed every bit of the work and the knowledge that came along.

Adapting to all these new technological challenges and delivering quality results to our clients and partners has further outlined our expertise over CONTAO and TYPO3.

Now we are the only one in INDIA to be awarded as CONTAO Official Partner.

Vrisini Infotech L.L.P. designs creative websites for people, companies and organisations, that inspire us to just be ourselves.

*# imaginative, # creative, # effective*

Our Services

- Software Development
- Data Security
- Mobile App Development
- Business Solutions
- Web Applications
- Responsive Web Design

85% Software Development
65% Webdesign
75% Web Application

📱 Mobile App Development

Using PhoneGap, we create an app for the various stores using your existing responsive website.The advantage is scalability.
You need to make changes only to your website and the apps will adapt to the changes automatically.

🖥 Responsive Webdesign

Marketing and communication on a website identify what works for its target market. This can be an age group or particular strand of culture; thus we understand the trends of its audience. We alw ays keep in mind and understand the type of website we are designing. We always try to keep our designs as unique, sober, soothing to the eyes and highly adhering to the best of the standards in its own category and target visitor.

⚙ Software Engineering & Consulting

We help the customers to adapt the software engineering principles and methodologies into their development area. The engineering approach, which is not that prevalent in the current scenario of software development worldwide, can create an awesome predictability of the project success. Establishing an approach right from understanding the business eases every phase of the development efforts while assuring the quality of the product and satisfaction of our customers.

🗄 Data Security & IT Maintenance

Here at **VRISINI INFOTECH L.L.P.** we know how to perform good network services as we have been successfully working with clients from all over the world and have established our own reliable system for large numbers of users working in the company.
Our server support services include remote system monitoring, urgent troubleshooting performance or necessary upgrading.
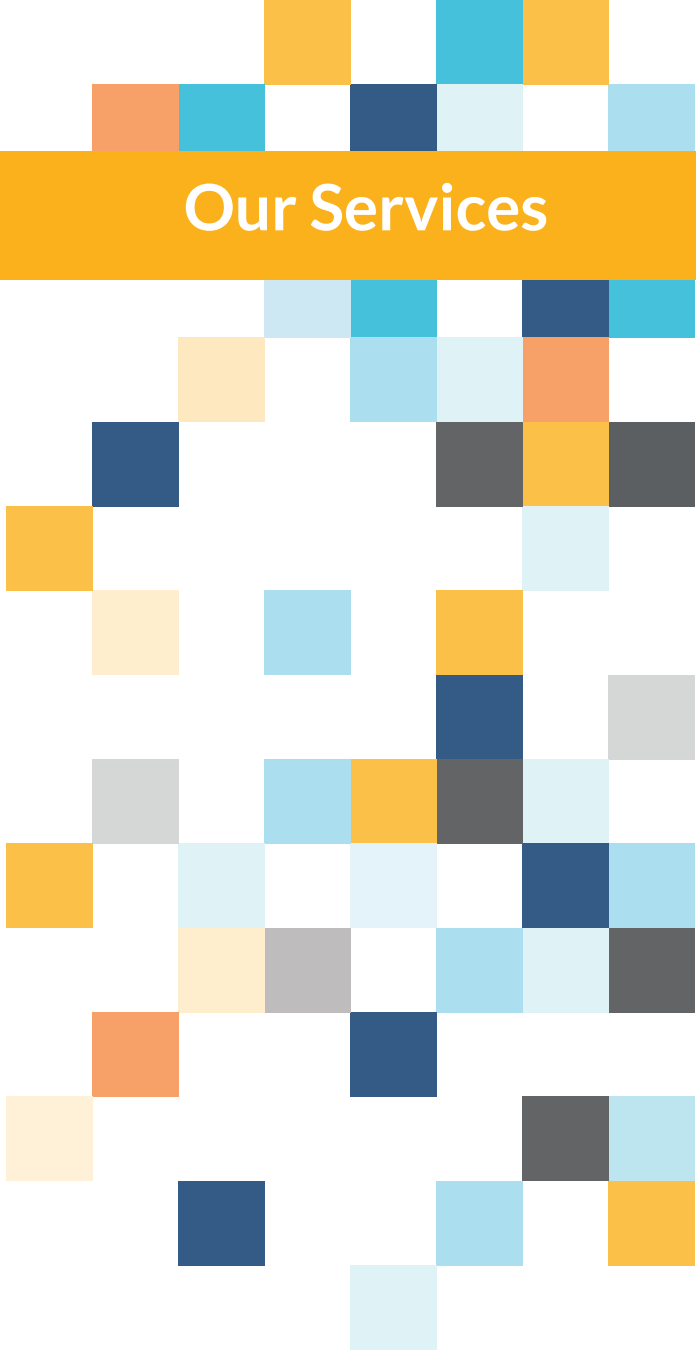

🔒 Development of secure web applications

We at **VRISINI INFOTECH L.L.P.** realize the importance of creating the first impression. Hence, we bring to you an array of solutions to choose from, based upon what suits your purpose and vision behind the website or portal. Just like there are specific medicines for specific ailments, similarly there are different solutions to different requirements. You can either choose from our areas of expertise below or allow us to help you in reaching to a decision.

👥 Enterprise Solutions

A successful business in today's world relies heavily upon some application which acts as the backbone of the business.We have a specialized team to cater to any enterprise level requirements which you might have. Delivering robust web-based online solutions developed around latest technologies with a user friendly interface is our primary goal.
